

```
graph TD; A([FunctionCall, function name -> radioChange, param -> e.detail]) --> B([For Loop]); B --> C([Assignment, left -> items[i].checked, right -> items[i].type == e.detail.value]);
```

FunctionCall,
function name -> radioChange,
param -> e.detail

For Loop

Assignment,
left -> items[i].checked,
right -> items[i].type == e.detail.value
